entered into between

(Company registration number: 2011/118829/08)

and

The National Department of Home Affairs

(“The Parties”)

Preamble

The parties agree that:

Whereas the Republic of South Africa has acceded to the 1951 Convention Relating to Status of Refugees, the 1967 Protocol Relating to the Status of Refugees and the 1969 Organization of African Unity Convention Governing the Specific Aspects of Refugee Problems in Africa as well as other human rights instruments, and has in so doing, assumed certain obligations to receive and treat in its territory refugees in accordance with the standards and principles established in international law; and

Recognising that the Department of Home Affairs has the national mandate and obligation to ensure refugee protection in South Africa by providing for the reception into South Africa of asylum seekers, regulating applications for recognition of refugee status and providing for the rights and obligations flowing from that status;

Recognising that all those who seek asylum in South Africa should have access to all rights in our Constitution, except for the right to vote;

Recognising that corruption and bribery undermines the rights of displaced persons within our Republic and undermines efforts aimed towards fair, efficient and meaningful processes for the reception of asylum seekers and the regulation of applications for refugee status; and

Recognising that corruption and bribery violates the Constitutional rights of all displaced people in the Republic who should without fear, favour or prejudice seek asylum in South Africa and have their claim adjudicated free of charge, in accordance with the highest standards of transparency in public administration;

Recognising that although various state established mechanisms exist for the processing of reports of corruption by refugees and asylum seekers, such mechanisms are often not widely known about and are intimidating to those wishing to report corruption, largely because they fear reprisal and prejudice to their applications for asylum. .
